EDUCATION

National University of Singapore **Aug 2018 - Present**
Bachelor of Computing in Computer Science

- CAP: 4.39 / 5.00 (Second Class Honours (Upper Division))

TECHNICAL SKILLS

- Programming Languages: Java, Python 3, HTML, CSS, JavaScript, Git, GDScript
- Software & Tools: MS Office, Android Studio, React Native, LaTeX

PROJECTS

Independent Software Development Project (Orbital) **May 2019 - Aug 2019**
Orbital is the School of Computing's 1st year summer self-directed, independent work course.

- Paired with a partner to develop a bill-splitting application called Split-It
- Gained exposure to React Native, Firebase and Google Cloud Vision

Self-Initiated Projects **Aug 2018 - Present**
These are projects I pursue during spare time, in order to deepen proficiency in specific coding languages.

- Self-learnt Godot to develop two mobile games, Dyno Jump and 100 Taps, and were uploaded onto Google Play Store
- Deployed a Telegram bot onto Heroku, sending reminders to students regarding key dates

WORK EXPERIENCE

NUS School of Computing, CS1101S **Aug 2019 - Nov 2019**
Teaching Assistant

- Conceptualized weekly 2-hour lesson plans and materials
- Facilitated tutorial sessions for a group of 8 students, focused on JavaScript programming language

COMMUNITY SERVICE AND ACTIVITIES

JunctionX Hackathon, Singapore **Oct 2019**
Fourth Place Award Winner

- Built a web page to assist users in securing confidential information, through the use of multiple databases

Freshmen Orientation Week **Jul 2019**
Orientation Group Leader

- Led a group of 16 freshmen through a 4 days camp

Changi Simei Constituency, East Coast GRC **Dec 2013 - Present**
Volunteer, Meet-the-People Session

- Interview residents' cases and type appeal letters to relevant organizations
